

## Inspired Entertainment, Inc. Reports Strong Third Quarter FY2018 Results and Completion of its Debt Refinancing

August 13, 2018

- Revenue in the third quarter increased 14.3% as compared to the same quarter last year, principally driven by 37.7% growth in Server Based Gaming ("SBG") service revenue.
- Net loss narrowed significantly, from \$8.3 million to \$4.0 million, as Adjusted EBITDA(1) increased 60.8% from \$9.7 million to \$15.5 million.
- Inspired successfully completed an approximately \$150.0 million debt refinancing on its senior debt and extended maturity to 2023.(2)
- The Company extended its key contracts with OPAP for video lottery terminals ("VLTs") and Virtual Sports as well as its server based gaming agreement with Paddy Power.

NEW YORK, Aug. 13, 2018 /PRNewswire/ -- Inspired Entertainment, Inc. ("Inspired") (NASDAQ: INSE) today reported financial results for its third quarter, ended June 30, 2018. As previously announced, management will host a conference call at 8:00 AM U.S. Eastern Time, Tuesday, August 14, 2018, to discuss the third quarter results and general business trends; access details are provided below.

# INSPIRED

"Our third quarter performance is a testament to the strength of our underlying core business and our ongoing strategy to diversify our revenue base not only across product and service areas but across geographies as well," said Inspired Executive Chairman Lorne Weil. "With our third quarter Adjusted EBITDA growing 61% year over year to \$15.5 million and our Adjusted EBITDA margins growing to 42% from 30%, our business is building as envisioned. Our products continue to deliver and gain traction while our margins are benefiting from scale."

Mr. Weil continued, "We are very pleased with the additional machine installation and the launch of an additional Virtual Sports channel in Greece. We believe our strong performance in Greece is sparking interest in our innovative games and technology from operators around the world, further diversifying our geographic exposure. We expect this to bode well for our products in North America, where we will be launching Virtual Sports with the Pennsylvania Lottery later this week."

### Third Quarter and Recent Highlights

#### Finance

- **Refinancing debt** - Inspired announced today the completion of an approximately \$150 million refinancing of its borrowing facilities, in a series of transactions, including (i) the sale of \$140 million principal amount of five-year promissory notes with a LIBOR + 900 basis points interest rate and (ii) a £7.5 million revolving credit facility. A majority of the net proceeds are being used to prepay Inspired's existing senior term and revolving credit facility and pay accrued and unpaid interest thereon plus any related premiums, fees and costs. In connection with the refinancing, the Company has entered into a three-year, fixed-rate, cross-currency swap. Details are provided in Inspired's Current Report on Form 8-K filed with the SEC in respect of the refinancing.

"After the quarter end, we successfully refinanced our senior bank debt and extended our maturity at a lower cost," said Stewart Baker, Executive Vice President and Chief Financial Officer of Inspired. "This should not only strengthen our balance sheet, it should also lower our cost of capital. Our net debt/Adjusted EBITDA ratio is now 2.5x trailing twelve-month Adjusted EBITDA, which we believe will allow us more flexibility to capitalize on meaningful opportunities to grow our business."

#### Server Based Gaming

- **Multi-Year Contract Extension and Increased Terminal Order with OPAP** – Inspired extended its agreement with Greek betting and lottery operator OPAP to supply VLTs while contracting for an additional 965 terminals, bringing OPAP's total number of contracted machines to 8,360, with Inspired continuing to have the largest contracted estate in Greece. As of June 30, 2018, Inspired had installed approximately 4,800 terminals in Greece. The revenue per machine of our Greek terminals continued to be strong compared to other suppliers during the period.
- **Contract Extension with Paddy Power** – The Company extended its agreement with Paddy Power for an additional two and a half years with no

further capital expenditure.

- **Contract Extension and Increased Revenue Share with Sisal in Italy**– Inspired agreed to a four-year contract extension with Sisal Group S.p.A., our largest customer in Italy. In addition to the continuation of hardware, platform and games supply, Inspired will provide service and parts, which comes with an increased revenue share.
- **Strong Growth in Italy Estate** – Inspired has increased its Customer Gross Win per unit per day in Euros by 21.9% compared to the same period last year, principally driven by new content releases and improved account management.

#### Virtual Sports

- **Launching Pennsylvania Lottery later this week** – The Pennsylvania Lottery has been marketing and educating Pennsylvania Lottery retailers and players about Inspired's Virtual Sports products throughout Pennsylvania. The Lottery is planning to go live with Virtual Sports later this week. Scheduled events will be broadcast on lottery monitors via two dedicated channels, branded Xpress Car Racing™ and Xpress Football™ by the Pennsylvania Lottery.
- **Multi-Year Contract Extension and Additional New Virtual Sports Channel with OPAP** – Inspired has extended its Virtual Sports agreement with OPAP and will be adding another Virtual Sports channel to launch Football Matchday™ before the end of 2018, alongside Rush Football 2™, which has been offered since April 2017.
- **Launch of New Virtual Sports Content with Sisal** – Inspired's Virtual Football Matchday™ is now live and featured on a dedicated channel across 480 of Sisal's Italian retail estates. This launch makes Inspired the sole provider of Virtual Football content for the leading Italian operator.
- **Additional Virtual Sports Operators** – Number of Virtual Sports operators increased to 95 live worldwide (as of June 30, 2018), up 15.9% from the same time last year.
- **New Mobile Operators Live** – By the end of the period, Inspired's Mobile RGS business was live with 25 customers, having launched Inspired content with 16 new mobile gaming customers since June 30, 2017.

#### Management Outlook and Commentary

Management expects Adjusted EBITDA to be at the lower end of previously communicated guidance, assuming a fourth quarter GBP:USD exchange rate average of GBP 1 = USD 1.31.

#### Overview of Third Quarter Results (as compared to third quarter of prior year)

Total revenue for the quarter ended June 30, 2018 increased by \$4.6 million, or 14.3%, from the quarter ended June 30, 2017, to \$36.9 million, on a reported basis. Favorable currency movements<sup>3</sup> accounted for \$2.1 million of the increase, with constant currency<sup>4</sup> revenue increasing by \$2.5 million, or 7.9%.

SBG revenue increased by \$2.1 million, or 9.2%, on a constant currency basis, comprised of growth in service revenue of \$5.4 million offset by lower hardware sales of \$3.2 million.

SBG service revenue increased by \$5.4 million, or 30.0%, on a constant currency basis, as a result of the continued rollout of terminals in Greece driving a \$1.9 million increase, and software license sales of \$3.4 million into Greece.

SBG hardware revenue decreased by \$3.2 million, on a constant currency basis, driven by lower hardware sales into Greece of \$2.8 million and the Electronic Table Gaming ("ETG") business of \$0.3 million.

Virtual Sports revenue increased by \$0.4 million, or 4.5%, on a constant currency basis, to \$10.0 million, driven by new customer revenue from Inspired's Mobile RGS product, as well as continued growth in Greece, Finland and Poland. Underlying Virtual Sports revenue increased by \$1.0 million, or 12.8%, with Virtual Sports land-based and online customers accounting for \$0.6 million of the increase and \$0.4 million coming from Mobile RGS. Growth was negatively affected by \$0.6 million due to a reduction in revenue from long-term Virtual Sports licenses that have now come to an end.

Cost of sales, excluding depreciation and amortization, which includes machine cost of sales, consumables, content royalties and connectivity costs, decreased from the quarter ended June 30, 2017 by \$1.1 million, or 12.4%, on a reported basis, to \$7.9 million. Of this decrease, \$0.5 million arose from adverse currency movements. On a constant currency basis, cost of sales decreased by \$1.6 million, or 17.4%.

Cost of service increased by \$1.4 million, or 32.7%, on a constant currency basis, due to an increase in Greece SBG service costs of \$1.1 million, driven by continued roll out, and additional costs to service UK SBG terminals of \$0.1 million. The additional cost of supporting new recurring contracts for Virtual Sports amounted to \$0.2 million of the increase.

Cost of hardware decreased by \$2.9 million, or 59.9%, on a constant currency basis, due to lower nil margin hardware sales in Greece. Hardware sales are made at nil margin in certain circumstances in order to secure long-term revenue sharing contracts.

SG&A expenses increased by \$1.5 million, or 10.6%, on a reported basis, to \$15.2 million. Of this increase, \$0.9 million arose from adverse currency movements. On a constant currency basis, SG&A expenses increased by \$0.6 million, or 4.3%. \$1.5 million of this adverse variance was due to restructuring costs relating to senior management changes announced in May 2018. This was partially offset by \$0.9 million of staff-related cost savings.

Depreciation and amortization increased by \$1.9 million, or 22.0%, on a reported basis, to \$10.6 million. Of this increase, \$0.6 million arose from adverse currency movements. On a constant currency basis, depreciation and amortization increased by \$1.3 million, or 14.9%. This increase was driven by \$0.6 million of additional amortization in connection with new platforms and games going live on SBG and \$0.4 million from machine and machine-related depreciation. This is due to an increase from the continued rollout of machines in Greece (\$0.5 million), partly offset by fully depreciated machines in Colombia (\$0.1 million).

On a reported basis, our net operating result improved from a loss of \$0.7 million in the 2017 period to a profit of \$1.6 million in the 2018 period, of which \$0.1 million arose from favorable currency movements. On a constant currency basis, net operating loss improved by \$2.3 million, due to an increase in revenue and a decrease in cost of sales. This was partly offset by an increase in depreciation and amortization and SG&A.

Adjusted EBITDA, which the Company considers an important underlying business performance measure, increased by 60.8% year over year before adjusting for foreign currency impact. After adjusting for foreign currency impact, Adjusted EBITDA increased 51.5%. Adjusted EBITDA is a non-GAAP financial measure. Our definition of the measure and its reconciliation to net loss are provided later in this release.

(1) Includes all SBG terminals in which we take a participation revenue share across all territories.

In the period ended June 30, 2018, SBG revenue increased \$3.6 million, to \$26.9 million, on a reported basis. Of this increase, \$1.5 million arose from favorable currency movements. On a constant currency basis, SBG revenue increased by \$2.1 million, or 9.2%.

SBG service revenue increased by \$6.7 million, or 37.7%, on a reported basis. Of this increase, \$1.4 million arose from favorable currency movements. On a constant currency basis, SBG service revenue increased by \$5.4 million, or 30.0%, to \$24.5 million, primarily due to the continued rollout of terminals into Greece. This rollout drove additional participation revenue of \$1.8 million and other recurring revenue of \$0.2 million. During the quarter, we also completed a software license sale into Greece, generating revenue of \$3.4 million. SBG service revenue increased on a constant currency basis in Greece and Italy by \$5.3 million and \$0.2 million, respectively, due to the continued rollout in Greece and growth in Italy. This was partly offset by a decrease in service revenue in other jurisdictions of \$0.2 million, due to the revised terms in Colombia following the sale of machines there in 2017.

UK LBO Customer Gross Win per unit per day declined by 0.6%. These decreases were offset by an increase in average live terminals of 988, resulting in UK LBO service revenue in line with the prior period.

SBG hardware revenue decreased by \$3.1 million, or 56.3%, to \$2.4 million, on a reported basis, including favorable currency movements of \$0.1 million. On a constant currency basis, SBG hardware revenue decreased by \$3.2 million, principally due to lower hardware sales in Greece (nil margin), the ETG business and Colombia of \$2.8 million, \$0.3 million and \$0.1 million, respectively.

In the quarter ended June 30, 2018, SBG operating profit increased by \$2.9 million, or 61.8%, to \$7.6 million, on a reported basis, \$0.4 million of which arose from favorable currency movements. On a constant currency basis, SBG operating profit increased by \$2.5 million.

SBG cost of sales (excluding depreciation and amortization) decreased by \$1.4 million, or 16.9%, to \$6.7 million, on a reported basis, \$0.4 million of which arose from adverse currency movements. On a constant currency basis, cost of sales decreased by \$1.7 million. This was principally due to a decrease in hardware costs of \$2.9 million due to lower hardware sales in Greece, the ETG business and Colombia. This was partly offset by an increase in service costs of \$1.2 million, due to Greek SBG service costs of \$1.1 million and additional UK machine consumable costs of \$0.1 million.

SBG SG&A expenses increased by \$0.1 million, or 2.8%, to \$3.8 million, on a reported basis. \$0.2 million arose from adverse currency movements, which resulted in a constant currency decrease of \$0.3 million.

### Virtual Sports

Virtual Sports revenue increased \$1.0 million, or 10.9%, to \$10.0 million on a reported basis. Of this increase, \$0.6 million arose from favorable currency movements. On a constant currency basis, Virtual Sports revenue increased by \$0.4 million, or 4.5%.

This increase was principally the result of underlying revenue growth of \$1.0 million, or 12.8%, with \$0.6 million coming from Virtual Sports land-based and online customers driven by increases in Greece, the UK, Finland and Poland of \$0.2 million, \$0.2 million, \$0.2 million and \$0.1 million, respectively. The remaining \$0.4 million increase from Mobile RGS was driven by further penetration into the mobile marketplace, where the number of our customers increased from nine to 25. These increases were partly offset by a \$0.6 million reduction in revenue from long-term licenses that have now come to an end.

Virtual Sports operating profit increased by \$0.3 million, or 6.1%, to \$5.4 million, on a reported basis. Of this increase, \$0.3 million is from favorable currency movement. On a constant currency basis, net operating profit was in line with the prior period.

Virtual Sports cost of service increased by \$0.2 million, or 22.2%, to \$1.3 million, on a reported basis. Of this increase, \$0.1 million arose from adverse currency movements. On a constant currency basis, cost of service increased by \$0.2 million due to additional costs of supplying new recurring contracts.

Virtual Sports SG&A expenses increased by \$0.6 million, or 46.0%, to \$1.8 million, on a reported basis. Of this increase, \$0.1 million arose from adverse currency movements, resulting in a constant currency increase of \$0.5 million. This was due to an increase in staff-related and technology costs resultant of increasing Virtual Sports deployments.

### Non-GAAP Financial Measures

We use certain non-GAAP financial measures, including EBITDA and Adjusted EBITDA, to analyze our operating performance. We use these financial measures to manage our business on a day-to-day basis. We believe that these measures are also commonly used in our industry to measure performance. For these reasons, we believe that these non-GAAP financial measures provide expanded insight into our business, in addition to standard U.S. GAAP financial measures. There are no specific rules or regulations for defining and using non-GAAP financial measures, and as a result the measures we use may not be comparable to measures used by other companies, even if they have similar labels. The presentation of non-GAAP financial information should not be considered in isolation from, or as a substitute for, or superior to, financial information prepared and presented in accordance with U.S. GAAP. You should consider our non-GAAP financial measures in conjunction with our U.S. GAAP financial measures.

We define our non-GAAP financial measures as follows:

**EBITDA** is defined as net loss excluding depreciation and amortization, interest expense, interest income and income tax expense.

**Adjusted EBITDA** is defined as net loss excluding depreciation and amortization, interest expense, interest income and income tax expense, and other additional exclusions and adjustments. Such additional excluded amounts include stock-based compensation U.S. GAAP charges where the associated liability is expected to be settled in stock, and changes in the value of earnout liabilities and income and expenditure in relation to legacy portions of the business (being those portions where trading no longer occurs) including closed defined benefit pension schemes. Additional adjustments are made for items considered outside the normal course of business, including (1) restructuring costs, which include charges attributable to employee severance, management changes, restructuring and integration (2) merger and acquisition costs and (3) gains or losses not in the ordinary course of business.

We believe Adjusted EBITDA, when considered along with other performance measures, is a particularly useful performance measure, because it focuses on certain operating drivers of the business, including sales growth, operating costs, selling and administrative expense and other operating income and expense. We believe Adjusted EBITDA can provide a more complete understanding of our operating results and the trends to which we are subject, and an enhanced overall understanding of our financial performance and prospects for the future. Adjusted EBITDA is not intended to be a measure of liquidity or cash flows from operations or a measure comparable to net income or loss, because it does not take into

account certain aspects of our operating performance (for example, it excludes non-recurring gains and losses which are not deemed to be a normal part of underlying business activities). Our use of Adjusted EBITDA may not be comparable to the use by other companies of similarly termed measures. Management compensates for these limitations by using Adjusted EBITDA as only one of several measures for evaluating our operating performance. In addition, capital expenditures, which affect depreciation and amortization, interest expense, and income tax benefit (expense), are evaluated separately by management.

**Constant Currency.** Currency impacts shown have been calculated as the current-period average GBP: USD rate less the equivalent average rate in the prior period, multiplied by the current period amount in our functional currency (GBP). The remaining difference, referred to as constant currency, is calculated as the difference in our functional currency, multiplied by the prior-period average GBP: USD rate, as a proxy for constant currency movement.

**Currency Movement** represents the difference between the results in our reporting currency (USD) and the results on a Constant Currency basis.

Reconciliations from net loss, as shown in our Consolidated Statements of Operations and Comprehensive Loss included elsewhere in this release, to Adjusted EBITDA are shown below.
