

Inspired Entertainment, Inc. Reports Strong Growth as Part of Second Quarter 2018 Results

- Revenue in the second quarter increased 33.5% compared to the same quarter last year, principally driven by growth in Server Based Gaming ("SBG") service revenue.
- Net loss narrowed significantly, from \$9.1 million to \$0.5 million, as Adjusted EBITDA¹ increased 43.4%.
- Subsequent to the end of the quarter, Inspired entered into an agreement to deploy its Virtual Sports products to the entire lottery network of over 9,000 retailers throughout Pennsylvania in a recently-announced, groundbreaking deal with the Pennsylvania Lottery.
- Total SBG deployment of 31,616 terminals live (as of March 31, 2018) is 16.4% higher than as of the same date last year, driven by volume rollout in UK and Greece. An additional 1,035 VLTs were contracted in Greece during the 2nd quarter from OPAP, bringing the total number of contracted machines in Greece to 7,395, resulting in Inspired being the largest provider in Greece;
- Number of Virtual Sports operators increased to 94 operators live worldwide (as of March 31, 2018), up 20.5% from the same time last year, including launches in the quarter, with six operators in New Jersey carrying Inspired's online and mobile Virtual Sports content.
- Mobile RGS integrations increased from six to 22 year-on-year.

NEW YORK, May 9, 2018 /PRNewswire/ -- Inspired Entertainment, Inc. ("Inspired") (NASDAQ: INSE) today reported financial results for the quarter ended March 31, 2018. As previously announced, management will host a conference call at 9:00 AM U.S. Eastern Time, Wednesday, May 9, 2018, to discuss the second quarter results and general business trends; access details are provided below.

"Our second quarter results were strong, with our Adjusted EBITDA¹ margins growing from 30.8% in Q2 2017 to 33.2% in Q2 2018. This shows that we are realizing scale benefits," said Inspired Executive Chairman Lorne Weil. Mr. Weil continued, "Our sustained growth in Greece and our recent Virtual Sports contract win with the Pennsylvania Lottery demonstrate that our growth prospects are accelerating as our products gain traction in new jurisdictions."

Mr. Weil continued, "Our existing Virtual Sports geographies continue to yield growth opportunities as well, with expanded deployments including in Greece, Italy, Scandinavia, Ireland, and the UK. We also expect that our previously announced 1st DownTM Virtual Football game will launch with U.S. gaming and lottery customers in the middle of 2018. In mobile, we have launched our RGS with multiple new customers, including BetVictor and most recently SNAI. Growth momentum in our business is strong across multiple dimensions."

Second Quarter and Recent Highlights

Server Based Gaming

- **Increased SBG VLT Order with OPAP** - Inspired received additional SBG VLT orders from Greek betting and lottery operator OPAP, bringing its total number of contracted machines to 7,395. To date, Inspired has supplied 5,700 terminals to OPAP, with over 4,100 now live and operating as part of OPAP's continued deployment of SBG VLTs into its retail network.
- **Sisal SBG VLT Contract Extension Until 2022** - Inspired will continue to supply its SBG VLT platform, machines and games content to the Sisal estate in Italy for a further four years. As part of the agreement, Inspired will supply over 2,000 SBG VLT terminals to Sisal, provide remote and field services, and continue to deploy approximately six new games from its in-house studio per year.
- **New Content Deal with Novomatic** - In an agreement which extends to 2022, Inspired will supply VLT games content to Novomatic's platform across its Italian retail estate, which totals over 30,000 terminals. Inspired will initially deploy two games which will be accessible from the main menu, with the potential for further titles and exclusives in the future.
- **Strong Growth in Lottomatica Estate** - Inspired has increased its VLT volumes with Lottomatica by over 10% in the last year, with daily value played per machine increasing by 17.4% compared to the same period last year. Inspired's hit title 'Centurion' has consistently been one of Lottomatica's top performing games since its release and continues to attract new players. Inspired has also recently deployed its Virtual Sports across 300 new Lottomatica venues, with Matchday soon to launch on its own dedicated channel.
- **Global Starnet Launches EGTs with Inspired Technology** - Using Inspired's Open SBG Platform powered by 'Inspired Inside', Global Starnet will bring a brand new EGT product to venues and players, combining cabinets and games to deliver a full EGT experience.
- **Betfred SBG VLT Rollout Complete** - Following the announcement of a contract renewal and extension in October 2017, Inspired has completed the rollout of an additional 1,262 B2 B3 SBG VLT machines to Betfred, the UK's largest independent bookmaker.
- **New Electronic Table Game Launched for UK Casinos** - Inspired's new Electronic Table Game for UK casinos, Sabre HydraTM, featuring an intuitive user interface and gesture capability and configurable options with different headers, was launched at ICE Totally Gaming 2018.

Virtual Sports

- **Virtual Sports Content Deal Signed with Pennsylvania Lottery** - Inspired will deploy its Virtual Sports products to the entire lottery network of over 9,000 retailers, a mixture of retail venues and bars and taverns throughout Pennsylvania, as part of a groundbreaking integration with Pennsylvania's lottery platform provider. Initially, Inspired will launch with Stock Car Racing and its new 1st DownTM Virtual Football. Scheduled events will be streamed into venues via two dedicated channels, and branded Xpress Sports by the Pennsylvania Lottery.
- **Virtual Sports Live with Six New Jersey Operators** - MGM was the sixth US operator to go live with Inspired's online and mobile Virtual Sports, following the launch of Golden Nugget, Caesars, Resorts, Rush Street Interactive and Betfair.
- **Launch of New Virtual Sports Content with SNAI** - Inspired released a range of new and upgraded content in retail venues and online with leading Italian operator SNAI. Virtual Sports from Inspired are now also available on SNAI's new QUAD channel.
- **Additional Channels with Betfred** - Inspired has signed an agreement to distribute 49's content to Betfred's digital platform, which includes both Betfred.com and Totesport.com. Products previously only accessible to Betfred retail customers will become available via the Betfred Digital platform.
- **Virtual Grand National Success** ² - Inspired's Virtual Grand National 2018, which was broadcast on national television in the UK hours before

the live event, correctly predicted the winner of the race. BoyleSports and LadbrokesCoral were the first operators to stream Inspired's Virtual Grand National 2018 and Grand National Race of Champions products to their customers. In addition, 'Scratch 'n' Go Grand' National instant win game was also launched as a complementary product.

- **Live with BoyleSports** - BoyleSports' full estate of over 240 shops in Ireland is broadcasting three dedicated channels of virtual sports and numbers games via Inspired's proprietary multi-viewer in-venue rendering software.
- **Omni-Channel Games Launch Online and Mobile in Italy** - Inspired's Virgo Remote Gaming Server ("RGS") and premium omni-channel casino content are now live in Italy with SNAI, and soon to launch with Sisal, Eurobet and Betsson's StarCasino.
- **New Products Live with Skybet** - A range of Inspired's upgraded and re-branded Virtual Sports products are now live with Skybet.
- **New Mobile Operators Going Live and Signed** - Inspired signed four new mobile gaming operators, including 888, PAF, Evoke, and StarCasino. In addition, five new mobile gaming operators went live with Inspired content, including BetVictor, Betsson, VideoSlots, Aspire Global, and Casino 777.

"Our second quarter was successful with accelerated growth in SBG VLTs and Virtual Sports in continental Europe, multiple new and upgraded product launches in the UK, and additional online operators now live with our content in New Jersey, as well as our Virtual Sports contract win in Pennsylvania and a new Greek OPAP VLT order, both of which occurred after the quarter-end," said Mr. Weil. "Our Virtual Sports continues to lead the market both in terms of innovation and market adaptability, and we look forward to launching 1st Down™ Virtual Football with our U.S. gaming and lottery customers later this year."

Management Outlook and Commentary

Management maintains the outlook presented in our previous earnings release dated December 4, 2017, of Adjusted EBITDA for the fiscal year ending September 30, 2018 of between \$54 million and \$58 million, assuming a stable exchange rate environment.

Overview of Second Quarter Results (as compared to second quarter of prior year)

Total revenue for the quarter ended March 31, 2018 increased by \$9.4 million, or 33.5%, from the quarter ended March 31, 2017, to \$37.5 million, on a reported basis. Favorable currency movements³ accounted for \$4.3 million of the increase, meaning constant currency⁴ revenue increased by \$5.1 million, or 18.2%.

SBG revenue increased by \$5.0 million on a constant currency basis, or 25.5%, comprised of growth in service revenue of \$3.9 million and in hardware sales of \$1.1 million.

SBG service revenue increased by \$3.9 million on a constant currency basis, or 23.2%, as a result of the continued rollout of terminals in Greece driving a \$2.8 million increase, and software license sales of \$1.1 million into the Greek market.

Hardware revenue increases were driven by terminal sales of our new "Flex 4K" product of \$3.2 million, offset by lower hardware sales in the UK (excluding the "Flex 4K" product), Greek, Colombian and the Electronic Table Gaming ("ETG") markets of \$1.2 million, \$0.6 million, \$0.3 million and \$0.1 million, respectively.

Virtual Sports revenue increased by \$1.2 million, or 14.1%, on a reported basis. Revenue increased \$0.1 million on a constant currency basis, or 1.0%, driven by new customer revenue from our mobile remote game server ("Mobile RGS") product, continued growth in Greece and Poland and a new customer in Finland. Growth was negatively affected by a timing difference in the 2018 contract renewal of a major customer and by the recognition of 2017 revenues previously unreported to us, as well as by the timing of RGS content sales. Excluding these factors, Virtual Sports revenue increased by \$1.6 million on a constant currency basis, or 24%.

Cost of sales, excluding depreciation and amortization, which includes machine cost of sales, consumables, content royalties and connectivity costs, increased from the quarter ended March 31, 2017 by \$4.4 million on a reported basis, or 77.4%, to \$10.1 million. Of this increase, \$1.2 million arose from adverse currency movements. On a constant currency basis, cost of sales increased by \$3.3 million, or 57.2%.

Cost of service increased by \$2.1 million on a constant currency basis, or 64.8%, due to an increase in Greece SBG service costs of \$1.0 million and \$0.3 million from additional costs to service the UK SBG terminals. \$0.5 million of the increase was due to the additional cost of supporting new recurring contracts for Virtual Sports.

Cost of hardware increased by \$1.2 million on a constant currency basis, or 47.2%, due to incremental hardware sales in the UK. Hardware sales are made at nil margin in certain circumstances in order to secure long-term revenue share contracts.

SG&A expenses increased by \$1.2 million, on a reported basis, or 8.5%, to \$15.6 million. Of this increase, \$1.8 million arose from adverse currency movements. On a constant currency basis, SG&A expenses decreased by \$0.6 million, or 4.0%, due to staff related cost savings.

Depreciation and amortization increased by \$3.1 million in the period, to \$11.1 million, on a reported basis. Of this increase, \$1.3 million arose from adverse currency movements. On a constant currency basis, depreciation and amortization increased by \$1.8 million. The constant currency increase was driven by a \$1.7 million increase due to additional amortization accruing in connection with new platforms and games going live across SBG (\$1.6 million) and Virtual Sports (\$0.1 million).

On a reported basis, net operating loss decreased from a loss of \$2.1 million in 2017 to a loss of \$0.9 million in 2018, of which \$0.1 million arose from adverse currency movements. On a constant currency basis, net operating loss decreased by \$1.4 million, due to an increase in revenue and a decrease in acquisition-related expenses and SG&A. This was partly offset by an increase in cost of sales and depreciation and amortization.

Adjusted EBITDA, which the Company considers an important underlying business performance measure, increased by 43.4% before adjusting for foreign currency impact. After adjusting for foreign currency impact, Adjusted EBITDA increased 26.9%. Adjusted EBITDA is a non-GAAP financial measure. Our definition of the measure and its reconciliation to net loss are provided later in this release.

In the period ended March 31, 2018, SBG revenue increased \$8.2 million, to \$27.8 million, on a reported basis. Of this increase, \$3.2 million arose from favorable currency movements. On a constant currency basis, SBG revenue increased by \$5.0 million, or 25.5%.

SBG service revenue increased by \$6.6 million to \$23.6 million, or 39.2%, on a reported basis. Of this increase, \$2.7 million arose from favorable currency movements. On a constant currency basis, SBG service revenue increased by \$3.9 million, or 23.2%, primarily due to the continued rollout of terminals into Greece. This rollout drove additional participation revenue of \$1.9 million and other recurring revenue of \$0.7 million. During the quarter, we also completed a software license sale into the Greek market, generating revenue of \$1.1 million. SBG service revenue increased on a constant currency basis in the Greek, UK Other (includes UK casinos, gaming hall operators and bingo operators) and Italian markets by \$3.8 million, \$0.2 million and \$0.1 million, respectively, principally due to the continued rollout in Greece and growth in Italy.

UK LBO Customer Gross Win per unit per day grew by 2.2%. The gains from this increase were offset by revised terms in an SBG contract renewal with one UK LBO market customer, which was renewed without requiring further capital expenditure.

SBG hardware revenue increased by \$1.6 million, or 58.4%, to \$4.2 million, on a reported basis, including favorable currency movements of \$0.5 million. On a constant currency basis, SBG hardware revenue increased by \$1.1 million. The increase was principally due to higher terminal sales of our new "Flex 4K" product (these are nil margin sales) of \$3.2 million, offset by lower hardware sales in the UK (excluding the "Flex 4K" product) of \$1.2 million and lower hardware sales in Greece and Colombia of \$0.6 million and \$0.3 million, respectively.

In the 2018 period, SBG operating profit increased by \$1.5 million, or 31.2%, to \$6.2 million, on a reported basis, \$0.7 million of which arose from favorable currency movements. On a constant currency basis, SBG operating profit increased by \$0.8 million.

SBG cost of sales (excluding depreciation and amortization) increased by \$3.7 million, or 73.7%, to \$8.8 million, on a reported basis, \$1.0 million of which arose from adverse currency movements. On a constant currency basis, cost of sales increased by \$2.7 million. This was principally due to an increase in service costs of \$1.6 million, due to Greek SBG service costs of \$1.0 million and additional machine consumable costs of \$0.3 million, and an increase in hardware costs of \$1.2 million due to higher hardware sales in the UK market.

SBG SG&A expenses increased by \$0.2 million, or 5.5%, to \$4.0 million, on a reported basis. \$0.5 million arose from adverse currency movements, which resulted in a constant currency decrease of \$0.3 million.

Virtual Sports revenue increased \$1.2 million, or 14.1%, to \$9.7 million on a reported basis. Of this increase, \$1.1 million arose from favorable currency movements. On a constant currency basis, Virtual Sports revenue increased by \$0.1 million, or 1.0%, to \$9.7 million.

This increase was principally the result of recurring revenue growth of \$0.2 million in Virtual Sports land-based and online customers. Growth was negatively affected by a timing difference in the 2018 contract renewal of a major customer and by the recognition of 2017 revenues previously unreported to us, as well as by the timing of RGS content sales. Excluding these, revenue increased by \$1.6 million on a constant currency basis, driven by new customer revenue in Finland of \$0.1 million, continued growth in Greece of \$0.9 million, growth in the UK of \$0.3 million and growth in Poland of \$0.1 million. A \$0.4 million increase arose from further Mobile RGS penetration into the mobile market, where the number of our customers increased from six to twenty-two. These increases were partly offset a \$0.2 million reduction in revenue from long-term licenses that have now come to an end.

Virtual Sports operating profit decreased by \$1.0 million, on a constant currency basis. The decrease in operating profit was offset by favorable currency movements of \$0.5 million. On a reported basis, this represented a decrease of \$0.5 million.

Virtual Sports cost of service increased by \$0.7 million to \$1.3 million, on a reported basis. Of this increase, \$0.2 million arose from adverse currency movements. On a constant currency basis, cost of service increased by \$0.5 million, due to additional costs of supplying new recurring contracts.

Virtual Sports SG&A expenses increased by \$0.5 million, on a reported basis. Of this increase, \$0.2 million arose from adverse currency movements, resulting in a constant currency increase of \$0.3 million. This was due to an increase in staff related costs and technology costs due to increasing Virtual Sports deployments.

Non-GAAP Financial Measures

We use certain non-GAAP financial measures, including EBITDA and Adjusted EBITDA, to analyze our operating performance. We use these financial measures to manage our business on a day-to-day basis. We believe that these measures are also commonly used in our industry to measure performance. For these reasons, we believe that these non-GAAP financial measures provide expanded insight into our business, in addition to standard U.S. GAAP financial measures. There are no specific rules or regulations for defining and using non-GAAP financial measures, and as a result the measures we use may not be comparable to measures used by other companies, even if they have similar labels. The presentation of non-GAAP financial information should not be considered in isolation from, or as a substitute for, or superior to, financial information prepared and presented in accordance with U.S. GAAP. You should consider our non-GAAP financial measures in conjunction with our U.S. GAAP financial measures.

We define our non-GAAP financial measures as follows:

EBITDA is defined as net loss excluding depreciation and amortization, interest expense, interest income and income tax expense.

Adjusted EBITDA is defined as net loss excluding depreciation and amortization, interest expense, interest income and income tax expense, and

other additional exclusions and adjustments. Such additional excluded amounts include stock-based compensation U.S. GAAP charges where the associated liability is expected to be settled in stock, and changes in the value of earnout liabilities and income and expenditure in relation to legacy portions of the business (being those portions where trading no longer occurs) including closed defined benefit pension schemes. Additional adjustments are made for items considered outside the normal course of business, including (1) restructuring costs, which include charges attributable to employee severance, management changes, restructuring and integration (2) merger and acquisition costs and (3) gains or losses not in the ordinary course of business.

We believe Adjusted EBITDA, when considered along with other performance measures, is a particularly useful performance measure, because it focuses on certain operating drivers of the business, including sales growth, operating costs, selling and administrative expense and other operating income and expense. We believe Adjusted EBITDA can provide a more complete understanding of our operating results and the trends to which we are subject, and an enhanced overall understanding of our financial performance and prospects for the future. Adjusted EBITDA is not intended to be a measure of liquidity or cash flows from operations or a measure comparable to net income or loss, because it does not take into account certain aspects of our operating performance (for example, it excludes non-recurring gains and losses which are not deemed to be a normal part of underlying business activities). Our use of Adjusted EBITDA may not be comparable to the use by other companies of similarly termed measures. Management compensates for these limitations by using Adjusted EBITDA as only one of several measures for evaluating our operating performance. In addition, capital expenditures, which affect depreciation and amortization, interest expense, and income tax benefit (expense), are evaluated separately by management.

Constant Currency . Currency impacts shown have been calculated as the current-period average GBP: USD rate less the equivalent average rate in the prior period, multiplied by the current period amount in our functional currency (GBP). The remaining difference, referred to as constant currency, is calculated as the difference in our functional currency, multiplied by the prior-period average GBP: USD rate, as a proxy for constant currency movement.

Currency Movement represents the difference between the results in our reporting currency (USD) and the results on a Constant Currency basis.

Reconciliations from net loss, as shown in our Consolidated Statements of Operations and Comprehensive Loss included elsewhere in this release, to Adjusted EBITDA are shown below.
