

Inspired Reports Fourth Quarter And Full Year 2020 Results

NEW YORK, March 11, 2021 /PRNewswire/ --

- **Peak 2020 Monthly Revenue and Adjusted EBITDA, excluding VAT-related income, in October, continuing sequential monthly growth trend from third quarter 2020 before COVID-19-related closures in November and December ("COVID-19 Closures")**
- **Liquidity position remains strong with cash of approximately \$47.1 million and fully undrawn revolver availability of approximately \$27.4 million at year end¹**
- **Integration of the Gaming Technology Group of Novomatic UK Ltd. ("NTG") acquisition substantially completed with realized synergies exceeding previously communicated guidance**
- **Fourth Quarter Revenue of \$71.7 million, including \$32.5 million of VAT-related revenue**
- **Fourth Quarter Aggregate Online Revenue² nearly doubled year-over-year; strong forward pipeline of existing opportunities in North America, Europe and South America, including a new online provisional license for Michigan iGaming**
- **Fourth Quarter Adjusted EBITDA³ of \$34.9 million, including \$31.7 million of VAT-related income**
- **Company completes financial segment reclassification – New segments are Gaming, Virtual Sports, Interactive and Leisure**

Inspired Entertainment, Inc. ("Inspired") (NASDAQ: INSE) today reported unaudited financial results⁴ for the three-month period and fiscal year ended December 31, 2020.

The Company generated Total Revenue of \$71.7 million and Adjusted EBITDA of \$34.9 million in the fourth quarter 2020 on a reported basis⁵. These results include a payment from a UK LBO customer related to our contractual revenue share of their value-added tax rebate, which positively impacted Revenue by \$32.5 million and Adjusted EBITDA by \$31.7 million (in conjunction with third party fees).

"October was a stellar month and indicated how quickly we could recover before our land-based businesses went back into lockdown in November and December," said Lorne Weil, Executive Chairman of Inspired. "Our October monthly Revenue of \$21.2 million⁶ and Adjusted EBITDA of \$6.8 million⁶, or 32% of total revenue, was nearly 20% above October 2019 and the highest monthly levels we experienced in 2020, excluding the VAT-related income. This follows the general pattern we saw of sequential monthly growth throughout the third quarter 2020 following the second quarter lockdown. Importantly, year to year growth in October occurred despite the fact that October performance was impacted by pub curfews in early October and the introduction of tiered closures in the second half of the month."

Revenue and Adjusted EBITDA were negatively impacted in November and December by the COVID-19 Closures. In November, most of our land-based customers' venues were closed. In December the UK had a tiered lockdown system whereby many of our land-based customers' venues were open but restricted, limiting revenue while incurring near-full service costs. This tiered system is not expected to return in England.

The Company's aggregate business across its Online Virtuals and Interactive channels showed strength in the quarter with revenues increasing sequentially from \$3.0 million in October to \$3.3 million in November to \$4.2 million in December. This reflects year-over-year growth of 89%, 95% and 99%, respectively, over \$1.6 million, \$1.7 million and \$2.1 million in the same months in 2019, demonstrating the growing presence and popularity of the Company's online offerings.

Weil continued, "While the UK is expected to remain on lockdown through the first quarter 2021, based on the UK Prime Minister's public statement on February 22nd, and assuming achievement of key goalposts, the UK will ease lockdown restrictions in stages with LBOs reopening in April, pubs and holiday parks reopening in May and an end of the lockdown by June 21st. By the end of the second quarter 2021, assuming the UK ends its lockdown, we would expect our UK business to be on a run rate similar to where we were in the third quarter 2020 when we generated \$17.1 million⁶ in Adjusted EBITDA, excluding VAT-related income, at current exchange rates."

"Furthermore, by the third quarter 2021, we expect to have the added benefit of our online business having grown substantially year over year with continuing expectations for growth from that higher starting point due to a strong business development pipeline, including new commercial agreements in existing territories, jurisdictional expansion in North America, Europe and South America and continued strong product development across both Interactive and Online Virtual Sports. We also expect to have our holiday park business back to pre-pandemic levels, which was not the case in the third quarter 2020 given local restrictions. We're confident that, as we did last time, we will recover quickly once lockdowns are lifted to emerge from this pandemic even stronger than before with a lower cost structure, improved liquidity, a larger customer base and increased growth opportunities," concluded Weil.

With the filing of its Form 10-K for fiscal year 2020, the Company expects to have comprehensively realigned its segments into Gaming, Virtual Sports, Interactive and Leisure7, as represented below.

- Gaming: Gaming machines located in UK licensed betting offices ("LBOs"), casinos, gaming halls and high street adult gaming centers ("AGCs")
- Virtual Sports: Retail and Online Virtual Sports
- Interactive: Slot and table game offerings from our Gaming segment as well as interactive-only content via our remote gaming servers
- Leisure: Digital and analog gaming and amusement machines located in UK pubs, bowling alleys, motorway service areas ("MSAs"), bingo halls and leisure parks.

The restatements do not change any 2019 or 2020 reported results at the consolidated Inspired level.

"As we look ahead, we believe we are well situated to navigate our business through short-term challenges and over the long term," said Stewart Baker, Executive Vice President and Chief Financial Officer of Inspired. "We have established a strong liquidity position, successfully improved our overall cost structure, including non-COVID-19 related improvements, and streamlined our operations, including increased synergies from the NTG acquisition. We are using this opportunity to reclassify our financial segments to better mirror the way we evaluate our business and allocate resources and capital spending. Going forward, we remain focused on executing our strategic plan to drive margin expansion, deliver profitable growth, increase cashflows and maximize shareholder value."

Recent Highlights (as of March 11, 2021)

Gaming

- **58 North American Valor™ Sales in the Fourth Quarter** – This brings total Valor terminal sales since launch to 429. The Company has commitments for 30 additional units thus far in the first quarter 2021.
- **Paddy Power contract renewal** – Signed new two-year contract in the fourth quarter requiring no further significant capital expenditure.
- **\$32.5 Million Payment on Backdated VAT Tax Rebate** – Inspired received \$32.5 million from one of our SBG customers in the fourth quarter 2020 related to our contractual revenue share of their UK VAT rebate. We have received \$42.2 million of total VAT-related revenue in 2020 with an incremental \$3.1 million in recoveries received in the first quarter 2021.
- **Agreement with Sisal to Convert Games in Italy** - Inspired sold 774 existing installed VLTs to Sisal in the fourth quarter 2020 with a further 850 existing installed VLTs to be sold in 2021 as part of our strategy to focus on technology and games in Italy rather than on hardware operations.

Virtual Sports

- **New Retail and Online Virtual Sports Agreements** – In the first quarter 2021, Inspired signed new agreements to provide Virtual Sports across online and retail Virtuals product sets to Snaitech in Italy, The CAGE Companies in the Caribbean and Entain for all of their brands, including Ladbrokes, Coral, BetMGM, bwin, Sportingbet, partypoker, Gala and Foxy Bingo.
- **Online Virtual Sports Launches** – Online Virtual Sports were launched with Fortuna-owned brand Casa Pariurilor, a major online brand in Romania, in the fourth quarter 2020, and are expected to launch with Stoiximan in the second quarter 2021. Stoiximan is a leading Greek online gaming site owned by OPAP S.A.
- **Land-based Virtuals Developments** – In the fourth quarter, the Company signed with Intralot to make the Washington DC

Lottery the latest North American lottery to launch our land-based Virtual Sports. The Pennsylvania Lottery's 2020 full year sales from its Virtual Sports grew 255% year over year even with sports bars in Pennsylvania closed for a large part of the year and also after normalizing for promotions.

- **Virtual Plug & Play™ ("VPP")** –The Company has signed agreements with Caesars and BetMGM to launch our new complete end-to-end Online Virtual Sports offering in New Jersey.
- **High-Profile Virtual Events** – During the fourth quarter, Inspired held the virtual Lexus Melbourne Cup and the Greatest Ever Cox Plate, which were both televised in Australia.

Interactive

- **New Customers** – Interactive content launched with 16 new customers during the quarter across Germany, Belgium, Greece, Italy, New Jersey and the UK in the quarter, including OPAP, Skill on Net and Unibet in New Jersey.
- **Expanded Portfolio of Interactive Aggregators** – Launched a selection of premium slots on Scientific Games, Everymatrix, Microgaming, Relax, SBTech, Playtech and Pariplay content aggregation platforms during the fourth quarter.
- **New Jurisdictions** – Granted a provisional license to supply online games by the Michigan Gaming Control Board in the first quarter 2021 with games expected to launch in early 2021. Also granted a supplier license by the West Virginia Lottery Commission in the fourth quarter 2020, with commitments to distribute content in 2021.
- **New Content** – Eight games launched during the quarter including our very successful holiday trio of Santa King Megaways™, Santa Stacked Free Spins™ and Christmas Cash Pots™. Content from the NTG acquisition has proven to be extremely popular and outperformed internal expectations.
- **Germany Deployment** - Delivered 10 games to the German market for its opening in the fourth quarter 2020. All new Inspired games will be compliant with German regulations.

Leisure

- **MOTO Long-Term Contract Extension** – Inspired will continue to provide its gaming machines and services to MOTO, the UK's largest motorway service operator.

- 1 Assuming GBP:USD exchange rate of 1.37 at December 31, 2020.

Overview of Fourth Quarter Results Versus Prior Year Fourth Quarter on a Reported Basis

Gaming Revenue was \$50.5 million, an increase of 52.3% from \$33.2 million in the fourth quarter 2019, in part due to \$32.5 million in VAT-related revenue. **Gaming Service Revenue** was \$44.3 million, an increase of 102.1% from \$21.9 million in the fourth quarter 2019. Gaming service revenue was favorably impacted by the VAT-related revenue, which was offset by COVID-19 Closures in the UK (\$6.8 million), Greece (\$2.3 million) and Italy (\$1.7 million). **Gaming Product Revenue** declined to \$6.2 million from \$11.3 million in the fourth quarter 2019. Revenue during the quarter consisted of the sale of Valor™ terminals (\$1.4 million), Sabre Hydra™ electronic table games and machine sales in Italy (\$0.9 million).

Virtual Sports Revenue, which no longer includes Interactive but does include Online Virtual Sports, increased 1.8% to \$8.7 million from \$8.5 million in the fourth quarter 2019. Due to the COVID-19 Closures and resulting growing migration to gaming online, Online Virtual Sports increased \$3.0 million year-over-year while retail revenue declined \$2.8 million.

Interactive Revenue increased 99.5% to \$4.2 million from \$2.1 million in the fourth quarter 2019. The revenue growth came primarily from our existing customer base in Europe, reflecting the growing migration of end users to online platforms, an increase in the volume and popularity of the Company's new proprietary content, significantly improved game quality and strong account management. Additionally, Inspired launched with over 42 new online customers in 2020 throughout the UK, New Jersey, Canada, Greece, Mexico, Germany, Belgium, Italy and Sweden and further expanded its base of interactive aggregators.

Leisure Service Revenue was \$7.7 million in the fourth quarter 2020 compared to \$21.8 million in the prior year period. Revenue from pubs, leisure parks and MSAs was lower than the prior year as a result of the COVID-19 Closures. Revenue generated from

pub customers was \$2.8 million, compared to \$10.5 million in the prior year period; leisure park customers was \$2.6 million, compared to \$5.9 million in the prior year period; and MSA customers was \$1.8 million, compared to \$4.2 million in the prior year period. **Leisure Product Revenue** was \$0.6 million in the fourth quarter 2020 versus \$0.8 million in the prior year period.

Total Company SG&A expenses decreased by \$7.2 million, or 23.0%, on a reported basis, to \$24.1 million. This decrease was driven by staff cost savings of \$3.7 million due to the furlough scheme and synergies achieved, a cost savings on facility costs of \$1.0 million, \$1.0 million reduction in professional fees and \$0.7 million of lower travel and expense costs due to the COVID-19 pandemic. Italian tax-related costs decreased by \$0.4 million (excluded from Adjusted EBITDA) and costs of group restructure decreased by \$0.2 million (excluded from Adjusted EBITDA).

Total Company Net Cash Provided by Operating Activities Less Capital Expenditures during the quarter increased to an inflow of \$13.4 million from an outflow of \$2.6 million in the prior year period representing a \$16.0 million increase in cash generation. This was helped by a \$31.7 million VAT-related income payment and partly offset by a \$12.6 million bi-annual interest payment.

Segment Reporting Reclassification

In prior years, and up to and including the interim period nine months ended September 30, 2020, the Company operated its business along three operating segments: Server Based Gaming, Virtual Sports (which included Interactive) and Acquired Businesses. During the period subsequent to September 30, 2020, the Company has completed the process of changing its internal structure, which has been ongoing since the NTG Acquisition, and as a result has changed the composition of its operating segments. The Company now operates its business along four operating segments, which are segregated based on the basis of revenue stream: Gaming, Virtual Sports, Interactive and Leisure. The Company believes this method of segment reporting reflects both the way its business segments are now managed and the way the performance of each segment is now evaluated.

As part of the recharacterization exercise, certain items of Revenue, Cost of Sales and Selling and Administrative Expenses have been recharacterized to ensure consistency with similar items across the Group. The revenue recharacterizations are to ensure spares and similar items are reflected with other items of hardware (Product Sales). The recharacterization has no impact on the previously reported Company Revenue, Adjusted EBITDA, Net Operating Loss, Net Loss or Net Comprehensive Loss for the year ended December 31, 2019.

The Company has provided reclassified 2019 and 2020 reported results to reflect the adoption of this new segment reporting structure in an accompanying supplemental table as well as in the "Inspired New Segment Reporting" disclosure presentation found on the Company's website.

Non-GAAP Financial Measures

We use certain non-GAAP financial measures, including EBITDA and Adjusted EBITDA, to analyze our operating performance. We use these financial measures to manage our business on a day-to-day basis. We believe that these measures are also commonly used in our industry to measure performance. For these reasons, we believe that these non-GAAP financial measures provide expanded insight into our business, in addition to standard U.S. GAAP financial measures. There are no specific rules or regulations for defining and using non-GAAP financial measures, and as a result the measures we use may not be comparable to measures used by other companies, even if they have similar labels. The presentation of non-GAAP financial information should not be considered in isolation from, or as a substitute for, or superior to, financial information prepared and presented in accordance with U.S. GAAP. You should consider our non-GAAP financial measures in conjunction with our U.S. GAAP financial measures.

We define our non-GAAP financial measures as follows:

EBITDA is defined as net loss excluding depreciation and amortization, interest expense, interest income and income tax expense.

Adjusted EBITDA is defined as net loss excluding depreciation and amortization, interest expense, interest income and income tax expense, and other additional exclusions and adjustments. Such additional excluded amounts include stock-based compensation U.S. GAAP charges where the associated liability is expected to be settled in stock, and changes in the value of earnout liabilities and income and expenditure in relation to legacy portions of the business (being those portions where trading no longer occurs) including closed defined benefit pension schemes. Additional adjustments are made for items considered outside the normal course of business, including (1) restructuring costs, which include charges attributable to employee severance, management changes, restructuring, dual running costs, costs related to facility closures and integration costs, (2) merger and acquisition costs and (3) gains or losses not in the ordinary course of business. This does not include any adjustments related to COVID-19.

We believe Adjusted EBITDA, when considered along with other performance measures, is a particularly useful performance measure, because it focuses on certain operating drivers of the business, including sales growth, operating costs, selling and administrative expense and other operating income and expense. We believe Adjusted EBITDA can provide a more complete understanding of our operating results and the trends to which we are subject, and an enhanced overall understanding of our financial performance and prospects for the future. Adjusted EBITDA is not intended to be a measure of liquidity or cash flows from

operations or a measure comparable to net income or loss, because it does not take into account certain aspects of our operating performance (for example, it excludes non-recurring gains and losses which are not deemed to be a normal part of underlying business activities). Our use of Adjusted EBITDA may not be comparable to the use by other companies of similarly termed measures. Management compensates for these limitations by using Adjusted EBITDA as only one of several measures for evaluating our operating performance. In addition, capital expenditures, which affect depreciation and amortization, interest expense, and income tax benefit (expense), are evaluated separately by management.

Functional Currency at Constant rate. Currency impacts shown have been calculated as the current-period average GBP: USD rate less the equivalent average rate in the prior period, multiplied by the current period amount in our functional currency (GBP). The remaining difference, referred to as functional currency at constant rate, is calculated as the difference in our functional currency, multiplied by the prior-period average GBP: USD rate, as a proxy for functional currency at constant rate movement.

Currency Movement represents the difference between the results in our reporting currency (USD) and the results on a functional currency at constant rate basis.

Pro Forma financial information is intended to illustrate the combined impact of the Company's Acquired Businesses by showing how the specific transaction might have affected historical financial statements had the acquisition occurred at the beginning of the acquirer's most recently completed fiscal year.

Reconciliations from net loss, as shown in our Consolidated Statements of Operations and Comprehensive Loss, to Adjusted EBITDA are shown below. The 2019/2020 EBITDA comparison does not include the Acquired Businesses in the 2019 results.
